

SAFARI ADVENTURE TOUR

Your Kenya Safari Guide

1. Best time to travel

July to October: Great Migration in the Masai Mara, best game viewing.

January/February: calving season, warm and quiet in the parks.

April/May: long rains - empty parks, lush green landscapes.

2. Packing list

Binoculars, sun hat, sunscreen (SPF 50), insect repellent.

Light, earth-toned clothing. Long sleeves in the evening.

Warm jacket for early game drives - mornings are cool.

Camera with zoom lens, spare batteries, power bank.

3. Health & entry

Apply for your e-visa online in advance (takes a few minutes).

Refresh standard vaccinations; hepatitis A recommended.

Malaria prophylaxis depending on region - ask your doctor.

4. On the game drive

Start early: the best wildlife viewing is between 6 and 9 am.

Stay in the vehicle, keep quiet, never approach animals too closely.

Patience pays off - your guide knows where waiting is worth it.

5. Money & tipping

Kenyan shillings or US dollars; bring small notes.

Tipping guideline: 10-15 USD per day for your guide.
